Is it any good? We are more than happy to announce that airsimmer.com has released a crack of the the a320 and the gl350 for FS2004 FS9. Aug 5, 2011 V1.1.2 Airsimmer A320 Basic v.1.1.2 [REPACK] + Install. This is the crack of the A320 and A330 that are avsim comes to FS2004.V1.1.2 I just tried to install this version and it seems that there is a problem: a bunch of.mfx files are created and an error message pops up as soon as I run sim with the installer: either I can find some file or directory that does not exist, or I cant find a file that should be here. May 17, 2011 Post release of the A320/A330 version. There are some minor bug which can be fixed in a potential 2.x.0 release. Let us know if you find any more bugs. We are aware that some bugs have been found and are doing an investigation to fix them before 2.0.0 or 2.0.0a. Sometimes its better to have a bug report than to have a fix. So we wish to thank Airsimmer for testing this version and igr8n for his investigations. Get your crack now, its free.
